ADVANCED CARDIOVASCULAR, THORACIC & INTERVENTIONAL CARDIAC CARE

**Comprehensive Heart & Chest Treatments
for Complex and High-Risk Conditions**

Precision • Minimally Invasive • Faster Recovery

Comprehensive Heart Care for International Patients

Our Interventional Cardiology program delivers advanced diagnostics, complex coronary angioplasty, structural heart procedures, and cardiac rhythm management using cutting-edge minimally invasive technologies for safer treatment and faster recovery.

Coronary & Vascular Interventions

Advanced Coronary & Vascular Treatments

- Image guided angioplasty using IVUS/OCT for complex cases
- Complex coronary angioplasty for multi-vessel disease, left main disease, and CTO
- Coronary angiography with latest generation drug-eluting stents
- Peripheral angioplasty and carotid artery stenting/renal angioplasty
- Endovascular aneurysm repair (EVAR)
- Drug-eluting balloon angioplasty for ISR / diffuse disease
- For calcified & complex cases angioplasty using Rota and IVL
- latest technology for treating uncontrolled hypertension by RDN

Structural Heart, Rhythm & Thoracic Care

Structural Heart, Rhythm & Cardiothoracic Procedures

- Pacemaker, ICD, CRT device implantation
- TAVR / TAVI and balloon valvuloplasty
- Mitral Valve interventions (Valve-in-Valve / Mitraclip)
- Electrophysiology (EP) studies and radiofrequency ablation
- Minimally invasive cardiac and thoracic surgeries

Why Choose Us?

Safer Procedures. Better Outcomes. Faster Recovery.

- Internationally trained CVTS surgeons and interventional cardiologists
- Advanced hybrid cath lab and minimally invasive surgical techniques
- Shorter hospital stay and quicker recovery
- Dedicated international patient coordination and personalized care

Healing Beyond Borders

Delivering advanced cardiac procedures, expert care, and successful outcomes for patients worldwide.

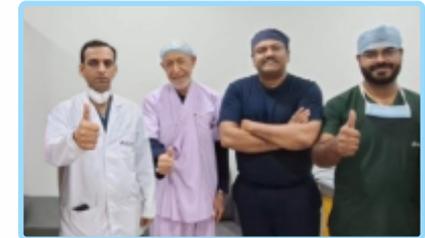

Transcatheter Mitral Valve-in-Valve Replacement
Cutting-edge structural heart care delivering life-saving outcomes for high-risk patients worldwide.

Advanced Interventional Cardiac Care
Comprehensive minimally invasive heart treatment delivering safe recovery and renewed hope for international patients with complex conditions.

Drug-Eluting Balloon Coronary Intervention
Cutting-edge interventional cardiology technique delivering effective blockage treatment without permanent stents.

Minimally Invasive Heart Surgery
Expert cardiac care delivering precision treatment with reduced surgical trauma and enhanced recovery outcomes.

Our Cardiovascular & Interventional Heart Team

Leading specialists delivering advanced heart and thoracic treatments with globally trusted expertise.

Dr. Umesh Kohli
Director – Interventional Cardiology & Cath Lab

Dr. Biju Sivam Pillai
Director - Cardiothoracic Vascular Surgery & ECMO Program

Dr. Rishi Gupta
Chairman Cardiac Sciences

Dr. Simmi Manocha
Sr. Interventional Cardiologist Director Non - Invasive & Clinical Cardiology

Dr. Aditya Baloria
Director Cardiac Anaesthesia
